HL7 Pipehat Peach Pit Data Sheet

- Peach Pit: HL7
- Supported Platforms: Windows, Linux, OS X

Health Level Seven (HL7) is a data format commonly used in the medical industry. Patient records and other data relevant to running a medical operation are included.

The standards don't mandate all aspects the encoding, but suggests a character-oriented syntax colloquially known as 'pipe' or 'pipehat'. This is the first segment from an example pipehat-encoded message:

```
MSH|^~\&|GHH LAB|ELAB-3|GHH OE|BLDG4|200202150930||ORU^R01|CNTRL-3456|P|2.4
```
